Wildfowl Starter Crumbs	20	Standard crumbs	0-4 weeks	Formulated to contain an ideal balance of amino acids to aid optimal growth and health.
Wildfowl Grower Pellets	15	3.2mm pellets	4 weeks onwards	Formulated to help ensure well developed, fit and healthy birds.

Medication

Avatec 15% CC (Game Birds)

- A coccidiostat for pheasants and partridges
- Included as standard in starter and grower diets
- Can only be supplied with a veterinary prescription

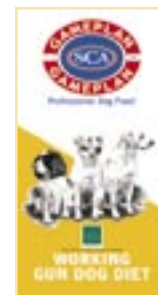

Flubenvet

- A broad spectrum anthelmintic (wormer)
- Active against a range of mature and immature stages of nematodes found in the respiratory and digestive system of birds
- Breeding birds: treat for 7 consecutive days in the autumn and again for 7 days before the laying season as a preventative measure
- Rearing birds: treat for 7 consecutive days at about 6 weeks of age and again 6 weeks later

Other medications are available on request when supplied with a veterinary prescription
